

True Potential Goldman Sachs Income Builder

Investment Manager

Sub-investment manager

Objective and Investment Policy

The Fund aims to provide income (paid monthly), whilst offering the potential for growth.

The fund also aims to achieve its objectives with a lower volatility (a measure of the size of short term changes in the value of an investment) than the MSCI World Index.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 3 years.

The Fund will invest in equities and bonds from all around the world.

The Fund will invest either directly or indirectly, via collective investment schemes or derivatives in:

- Bonds (issued by governments and other organisations)
- Shares (unit of ownership in a company)

The Fund may also invest in Warrants, cash, deposits, and money market instruments (investments usually issued by banks or governments that are a short-term loan to the issuer by the buyer) as well as other investment funds

The Fund may use derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying asset) for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital. The Fund may also use derivatives for investment purposes.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

The Benchmark for this fund is Morningstar UK Moderate Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Sub-Fund. Our aim is to help you monitor how your investment is performing. The Manager believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Sub-Fund. The Sub-Fund does not use the benchmark as a target, nor is the Sub-Fund constrained by it. The mix of assets in the Sub-Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 1 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 0.81%

There are no entry or exit charges.

Launch Date: 23 January 2017

Risk Profile: Balanced

The Balanced Investor may be somewhat concerned with short-term losses and may shift to a more stable option in the event of significant losses. The balance of investment risk and return are typically of equal importance to the Balanced Investor.
