

TRUE POTENTIAL CAUTIOUS BLENDED PORTFOLIO

Blended Portfolio Objective

The objective of the True Potential Cautious Blended Portfolio is to provide investors with a way to achieve their investment goals. The Blended Portfolio offers full exposure to different manager styles within the Cautious risk profile. This Portfolio will not be actively managed or rebalanced.

Risk Profile: Cautious

The Cautious Investor may be sensitive to short-term losses. A Cautious Investor's potential aversion to losses could compel them to shift into a more stable investment if significant short-term losses occur. Analysing the risk-return choices available, a Cautious Investor is usually willing to accept somewhat lower returns in order to assure greater safety of his or her investment.

Ongoing Charge Figure (OCF)*: 0.86%

There are no entry or exit charges.

Launch Date: 24th January 2018
