Sub-investment manager
7IM

Objective and Investment Policy

The Fund aims to provide growth over a rolling 3-year period, net of fees.

The investments in the Fund are mostly passive (tracks the performance of a stock index or another type of investment), but the investment manager makes active decisions on the mix of assets in their Fund.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 3 years.

The Fund will invest predominantly in shares (unit of ownership in a company). The Fund may also invest, directly or indirectly, in: Bonds (issued by governments and other organisations), other investment funds, cash, deposits, money market instruments (investments usually issued by banks or governments that are a short-term loan to the issuer by the buyer); derivatives, hedge funds (indirectly), private equities (indirectly), property (indirectly) and commodities (indirectly).

There are no specific geographic limits.

The Fund may use derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying assets) for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital. The Fund may also use derivatives for investment purposes.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

The Benchmark for this fund is Morningstar UK Adventurous Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Sub-Fund. Our aim is to help you monitor how your investment is performing. The Manager believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Sub-Fund. The Sub-Fund does not use the benchmark as a target, nor is the Sub-Fund constrained by it. The mix of assets in the Sub-Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 1 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 0.67%

There are no entry or exit charges.

Launch Date: 20 January 2016

Risk Profile: Aggressive

The Aggressive Investor usually aims to maximise long-term expected returns rather than to minimise possible short-term losses. An Aggressive Investor values high returns relatively more and can tolerate both large and frequent fluctuations through time in portfolio value in exchange for a higher return over the long-term.

Why True Potential 7IM Aggressive?

The True Potential 7IM Aggressive Fund is sub-managed by Seven Investment Management LLP and is managed in line with the 7IM AAP Adventurous Fund.

The True Potential 7IM Aggressive Fund provides a diversified fund designed to provide capital growth through exposure to equities globally.
