

True Potential Threadneedle Monthly Income

Objective and Investment Policy

The Fund aims to achieve regular income growth with prospects of capital growth. Income will be paid monthly where the level of income within the Fund allows.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 3 years.

The Fund is actively managed, which means that the manager chooses the mix of assets, and the Fund is not tracking the benchmark nor is the Fund constrained by the value, price or components of that benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

The Fund will invest predominantly in shares (units of ownership in a company).

The balance of the Fund will be mainly invested in UK bonds issued by governments and other organisations.

The Fund may use derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying assets) for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital. The Fund may only use derivatives and forward transactions for investment purposes on the giving of 60 days' notice to shareholders. The Fund does not currently use derivatives and forward transactions for investment purposes.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

The Benchmark for this fund is Morningstar UK Moderately Adventurous Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Sub-Fund. Our aim is to help you monitor how your investment is performing. The Manager believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Sub-Fund. The Sub-Fund does not use the benchmark as a target, nor is the Sub-Fund constrained by it. The mix of assets in the Sub-Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential Unit Trust Prospectus available at [www.truepotential.co.uk/documents/](http://www.truepotential.co.uk/documents/)

Ongoing Charges Figure (OCF)\*: 0.72%

There are no entry or exit charges.
